

THE ESSENTIALS OF
**COMMERCIAL
FENCING**
DRYCO CAN DO IT ALL

1**PURPOSE**

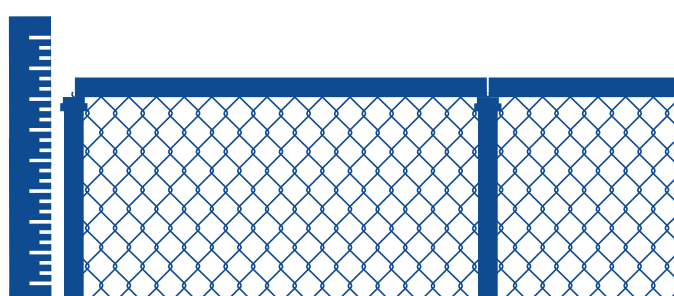

Define the primary function of the fence (security, privacy, aesthetics).

2**PRIVACY REQUIREMENTS**

For high privacy, select fencing options such as chain links slats or for partial privacy, select from other varieties of metal or iron fencing.

3**HEIGHT OF FENCE**

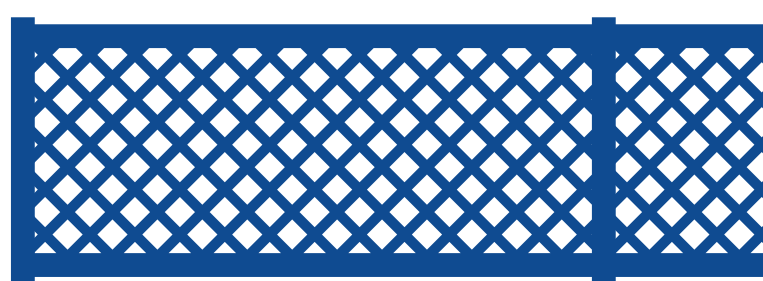

Determine based on security and privacy needs, adhering to local regulations.

**4****SECURITY REQUIREMENTS**

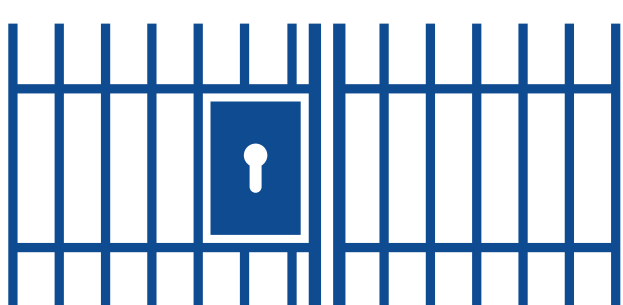

Consider anti-climb features, access control, and surveillance needs.

**5****TYPE**

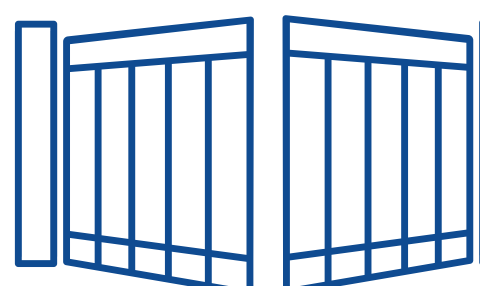

Determine details like topline, bottomline, material, post installation, and layout.

**6****ACCESS**

Plan gate placement and consider access control measures.

**7****GATE SWING/SLIDE
DIRECTION & CLOSURE**

Determine gate swing direction and install self-closing mechanisms. As well, select hinges based on gate size, weight, and frequency of use.

Our commercial fencing options enhance the security, functionality, and aesthetics of your property. We provide a wide variety of options because we know our commercial customers all have unique needs.
